Our Story

Heads Up kicked off in 2013 as a specialist tutorial centre, running small night and weekend IGCSE/O and A level classes. Its founder's vision was, at the time, purely focused on providing students with access to highly qualified and experienced teachers to guide, develop and polish students' abilities; thus, giving our students the opportunity to achieve their fullest potential in exams.

In January, 2016, Heads Up Academy opened its doors in response to a crying need for the same high-quality education provided by Heads Up all these years. Even though our main focus is still on building a strong IGCSE foundation for our students, we believe education is more than scoring A's. Hence, the many extra-curricular activities organised outside the classroom, ranging from sports and games to community service, reflect our belief in educating and developing the whole person.

Core Values

- Belief in God
- Respect for self and others
- Quality education
- Empathy
- Resilience

Our Academic Track Record

Our educational approach enables every student to reach high levels of academic and social success. Our students are confident, entrepreneurial learners and year on year, their standardised exam results exceed global averages.

Lower Secondary

YEAR 7 TO 9

Learning through exploration & creative activities.

Other than learning in the classroom, we also provide outdoor activities and extra-curricular activities for our students to strengthen their existing knowledge and to explore new things.

Our Lower Secondary has a welcoming and stimulating environment in which all students are inspired to learn. Our curriculum is carefully designed to promote high standards, whilst ensuring a love of learning and enjoyment of school.

Upper Secondary

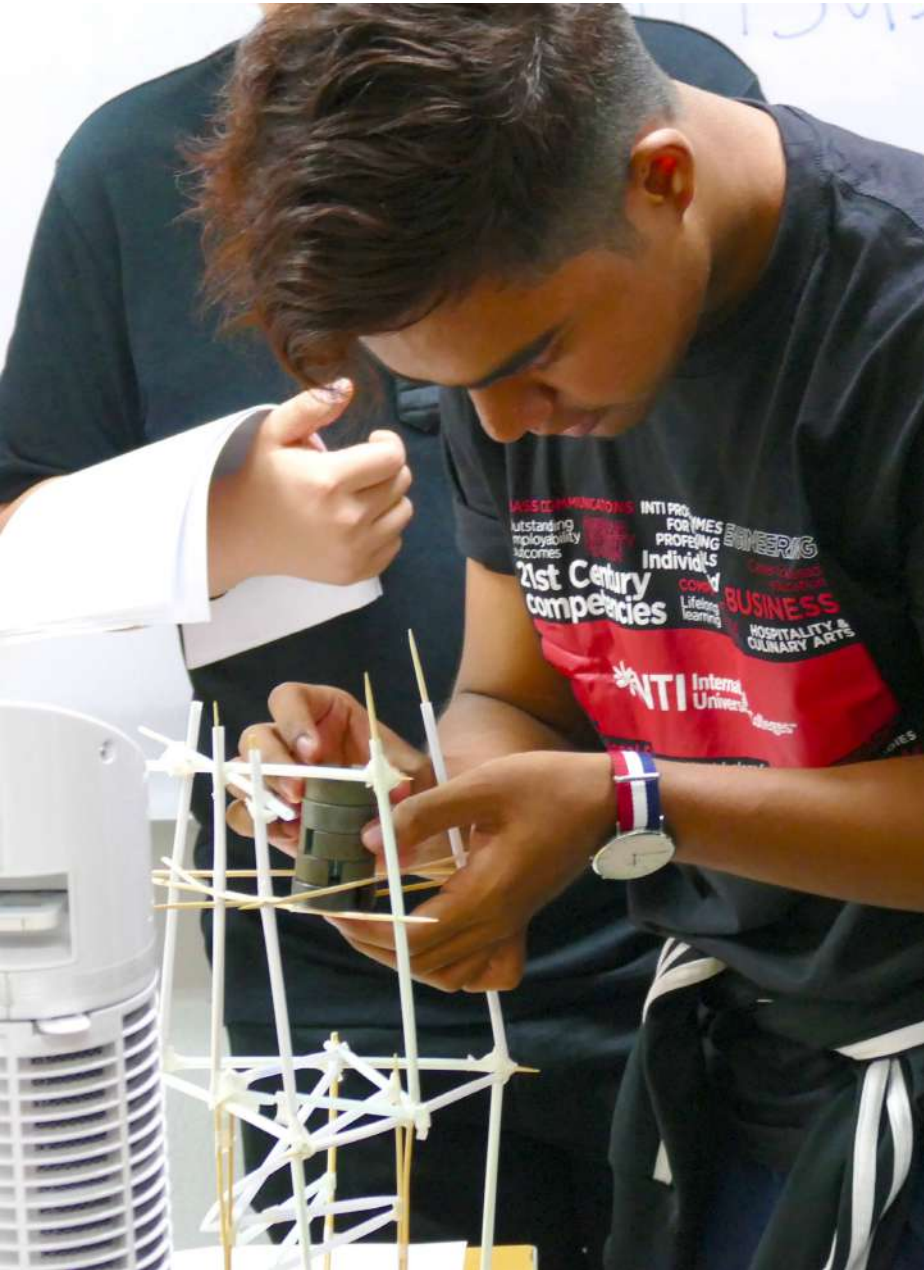

YEAR 10 TO 11

Prepare and train independent learning.

Our Upper Secondary offers a challenging yet enjoyable setting for our students, with a diverse range of opportunities available. Technology is incorporated across all subjects and students are taught in an environment where risk-taking, independence, critical thinking and teamwork are promoted.

We offer a balanced curriculum that allows students to choose subjects based on their interests, skills and talents, so that they may discover their passions and strengths whilst developing key skills.

Learning Beyond the Classroom

Community Services

We place great emphasis on helping our students build strong connections with each other while encouraging good manners and developing soft skills. Heads Up strives to instill good morals and values through its character-building programme.

Extra-Curricular Activities (ECA)

We are committed to a well-rounded education. Students will have the opportunity to develop their talents and interests through many co-curricular and extra-curricular activities. The activities are led by school staff or professional coaches and instructors. Some examples of the clubs and activities include:

Public Speaking, Coding, Japanese and Korean language Club. Our students can participate in excursions, events and competitions that provide both valuable learning experiences and enhance their understanding of other cultures and nurture friendships.

Study Tours & Excursions

We provide enrichment activities, field trips, sports or educational excursions allowing students to make meaningful links between textbook content and the world beyond their classrooms.

Sports House System

The Sports House System is an integral part of the Heads Up family. New students will be placed in one of our four Houses, namely, Burgundy, Orange, Blue and Purple. Each House has a Captain and meets weekly at a sports complex located near our school for sports and games. In addition, Inter House Competitions including Cooking, Mini Ted Talk, Festive Decoration and so on, are held to promote camaraderie, team spirit and leadership qualities.

All House competitions culminate in our popular and much-awaited Heads Up Annual Sports Challenge.

Our Greatest Assets

Academic excellence is what Heads Up is known for, but we know that there is more to school life than just a string of A's. Starting 2020, Financial Literacy will be embedded into Heads Up's curriculum to mould not only academically, but financially savvy students. Study tours and industrial visits help our young people comprehend the theoretical model taught in the classroom and its real world application. Participation in extra-curricular activities, such as Public Speaking and Coding, provides yet another platform for our students to develop life skills essential to becoming confident individuals facing the challenges of the 21st century.
